### A "Living Oracle."

As an example of some of the teachings and language that is to be accepted from these so-called "living oracles" without question by the Mormon people is the following from the lips of this same shining example of the "living oracles" in a seron July 26, 1837, as recorded in Journal of Discourses, volume 2, page 25:

### Another Sample.

In this connection the temptation can scarcely be resisted to give another sample of what at times has emanated from the brains and mouths of this priesthood" of the Mormon church; this stuff which must be accepted without question by the Morroon people. from a sermon preached by Heber C. Kimball September 6, 1856, in which the following prophecy is made by that distinguished advocate of "unquestioning obedience to the priesthood":

obedience to the priesthood."

The church and kingdom to which we belong will become the kingdom of our God and hie Christ, and Brother Brigham Young will become President of the United States. [Voices responded "Amen."]

And I tell you he will be something more; but we do not now want to give him the name, but he is called and ordained to a far greater station than that, and he is foreof-dained to take that station, and he has got it; and I am Vice-President, and Brother Wells is the Secretary of the Interior—yee, and of all the Similes in the Besh.

You don't helieve that, but I can tell you is one of the somilest things that I can think of. You may think that I am joiding but I am perfectly willing that Brother Long but I am perfectly willing that Brother Long bould write every word of it, for I can see it just as naturally as I see the earth and the productions thereof—Journal of Discourses, vol. 5, p. 219.

Unquestioning Obedience.

### Unquestioning Obedience.

But to return to the subject of "unquestioning obedience to the priesthood." On July 13, 186, at Provo, Ezra T. Benson preached a sermon which appears in Jour-nal of Discourses, volume 3, and on page 53 of that volume we find the following language

the authority of heaven, and it is the right of these who appointed them to dictat you and all others; it is therefore your duty to give heed to those placed over you in authority and if you do, you will sufor the spirit of God to a great extent even to your heart's satisfaction.

We are called upon to uphold, by our faith, works and our prayers, those who are over us we have raised our hands to sustain and uphold them and will we turn round and find the sum and will we turn round and find fault with that which we have cancitoued? Can you enjoy the spirit of God if you do this? No. In order to enjoy that spirit you must reverence all the members of the priesthood, no matter who may be in possession of it.

### President Taylor's View.

John Taylor, the man who succeeded Brigham Young as president of the Mormon church, in a sermon delivered Sep ember 20, 1857, as published in Journal of Discourses, volume 5, pages 254 and 265, preached "unquestioning obedience" in the following language:

The Presbyterians used to say that people ught to thank field for the privilege of being lamned. But I would not thank any body for seing dagged, but I think however, that of Discourses, volume a page 55.

In the second machine were Mrs. Martin, Mr. and Mrs. James E. Martin, Jr., and Mrs. William Manice.

The party had spent Sunday at the Golf club at Bayside, L. L. and its members were on their way home in the two automobiles when the accident occurred.

### Try to Pass Lighter Machine.

Try to Pass Lighter Machine.

The machine driven by the younger Martin started first from the Golf club and made fast time, as the entire party wished to be in New York in time for dinner. The larger and heavier machine, with Mr. Martin, Sr., and party, followed not long afterward and, midway between Bayside and Flushing, overtook the lighter machine. The leading muchine gave way to allow the other to pass, and an attempt was made to do so. The road appeared to be in good condition, but, as it proved, it was only a surface condition.

### Turns Completely Over.

Gas mains are being laid between Flushing and Bayside, and the recent rain must have caused a settling of some of the earth in the newly-filled trenches without disturbing the surface. When the automobile wheels struck the soft earth they cut down into it until the machinery hit the bard edge of the trench, and that caused the machine to jump and turn completely over.
